

# An update on the GNWT's Regional Land Use Planning Strategy

March 21, 2018 Whitehorse, Yukon

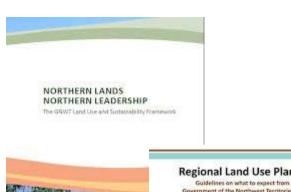

### **Presentation Overview**

- The NWT framework for regional planning
- Status of planning in the NWT
- GNWT efforts to strengthen regional planning & advance planning in unplanned areas
- Reflections

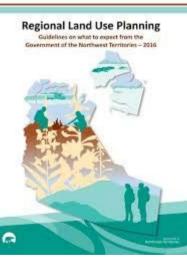

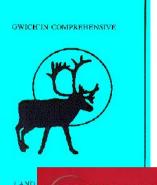

## Framework for planning in NWT

- "Basis of Agreement" for Northern Land Use Planning (1984)
- Lands Resources and Selfgovernment Agreements (Sahtu, Gwich'in, Tłįchǫ)
- Federal Mackenzie Valley Resource Management Act
- Northern Lands Northern Leadership – GNWT Land Use and Sustainability Framework (2014)
- Regional Land Use Planning: Guidelines on what to expect from the GNWT (2016)

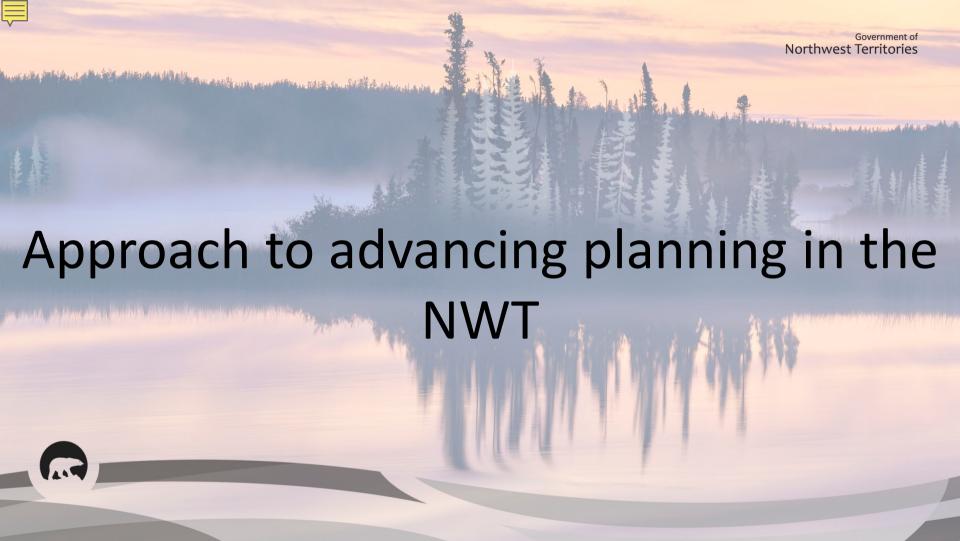

### State of Regional Planning

Nunavut

Akaitcho & Northwest Territory Métis Nation

Saskatchewan

Region	Status	Regions with settled land claims
Inuvialuit	Completed. Community advisory plans + RSEA	Regions without settled land claims  Inuvialuit
Gwich'in	Complete. Unable to complete 5 year review.	
Sahtu	Complete. Plan due for 5 year review in 2018.	Gwich'in
Tłįchǫ	Plan for Tłįchǫ Lands complete. Plan for public lands incomplete	Yukon Sahtu Tlicho Dehcho
Dehcho	Draft plan proceeding in tandem with land claim negotiation since 2006	
SE NWT	Incomplete. Potential to be completed in tandem with land claim negotiations	British Columbia Alberta

### **Current Planning Context**

Areas in the NWT without completed land use plans include overlapping traditional lands of several Indigenous groups within and outside of the NWT.

There is a move towards cogovernance between public and Indigenous Governments in the NWT

Canada seems willing to invest in the work being done in the NWT to advance direct government to government approaches to land use planning. Indigenous groups are seeking support from Government for their own pre-planning work, and to build overall capacity for participating in land and resource management.

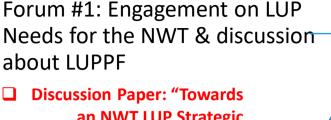

The policy framework to guide future land use planning will need to be developed and agreed upon in partnership.

Existing land use plans need renewal, and the planning boards are struggling.

Northwest Territories

### Our approach

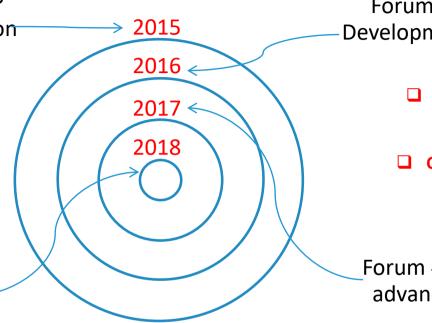

**LUP Process** 

an NWT LUP Strategic Framework"

☐ Scoping Study: A Wek'èezhìi

Forum #4: Engagement on Draft LUP Strategy

Forum #2: Engagement on Development of a GNWT LUP Strategy

Options Paper: Land Use Planning Mechanism for Wek'èezhìi

☐ Options Paper: Advancing

LUP in the SE NWT

Forum #3: Engagement on advancing LUP in SE NWT

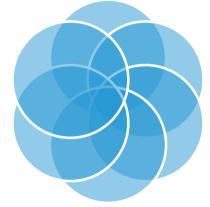

### The current conversation in the NWT

There is a real interest in undertaking future planning on a G3 basis between the NWT, Indigenous Governments and Canada. What is needed to guide the planning process?

We need to build **better business cases for federal funding** in partnership with our planning partners.

How can we support planning boards to complete the **review** of existing land use plans.

What can we learn from the successes of the Inuvialuit region in planning for areas of overlapping traditional lands, and the use of strategic EA?

How can we support Indigenous
Government led pre-planning work,
and community dialogue in
overlapping traditional areas as part of
a regional planning processes?

Can we do a better job at coordinating **sector planning; and, contribution funding** to address the capacity needs of Indigenous Governments?

### Reflections

- Build a shared vision through dialogue
- Strengthen relationships and build partnerships
- Pull all the levers
- Keep your eye on the big picture and adapt to regional differences

### Questions and comments

Darha Phillpot, Manager, Land Use Planning, Department of Lands, GNWT
